

# **FISCHER** JETplast®

*Kunststoff-Strahlmittel . Plastic Blast Media*

## PC

Trade Name:	<b>FISCHER</b> JETplast® Type PC
Application:	Deflashing medium for rubber parts.
Chemical Characteristics:	Polycarbonate, extruded
Shape:	cylindrical, cubical
Color:	red, blue, nature
Standard Grits:	0,50 x 0,50 mm 0,75 x 0,75 mm 1,00 x 1,00 mm 1,50 x 1,50 mm
Packing:	20 kg each PE-bag (transparent) max. 50 PE-bags in carton each palette = 1.000 kg

### Advantages:

- \* Manufactured strictly of high quality polycarbonate granule,- no recycle
- \* Each production lot is tested for size and quality
- \* Increased effectiveness, in particular with cubical shape
- \* Best cutting feature → high dimensional precision and stability of particles
- \* Low production cost → extremely low wearing and only marginal dust formation
- \* Long endurance

→ excellent price / efficiency relation
